## **A 3-Part Guide to Solving Mold Problems in Your Home or Building**

# HOW TO PREVENT + REMOVE TOXIC MOLD

Community Action Works lays out the basics, so you have the tools to tackle mold + make change in your community

PART 2/3

## HOW DO I PREVENT MOLD?

- Always prevent mold to protect your health - the best ways to do so include:
- Controlling moisture.
- Keeping indoor humidity low with air conditioners or de-humidifiers.
- Maintaining thorough ventilation in your home or building.
- Quickly and completely drying moisture.

## HOW DO I REMOVE IT?

- Prevention is key - but if you find mold, here are steps to tackle it.
- If the mold area is larger than 10 square feet, it is best to call a professional mold removal service.
- When choosing a service, ask about their experience and references, to ensure that they can properly remove your mold problem.
